REDEFINING SITUATIONAL AWARENESS AND PHYSICAL SECURITY

iAlert
autonomous surveillance platform
with advanced video analytics

✜ HIGH SECURITY VIDEO MANAGEMENT PLATFORM

With the combination of our revolutionary adaptive video and sensor analytics engine, sensor automation, bandwidth management and a powerful video and alarm management system, Physical Security is redefined when the Pivotal Vision iAlert Autonomous Surveillance Analytics System in place.

✜ GEO-TERRESTRIAL SKY VIEW - OVERHEAD SITE MAP

Map displays real-time intrusions; allows for instant assesment & response

✜ ADVANCED REPORTING AND INSTANT VIDEO PLAYBACK ON SENSOR ALARM

Gives users the capability to view alarm related video images based upon either Sensor (i.e. Microwave) or Video Analytics based alarm events

✜ LONG DISTANCE AUTONOMOUS PTZ TRACKING

Long Range Motion tracking with moving camera and moving background without the aid of any other cameras or triggers
